Coca Cola

Challenged

A new beverage, that was first developed in New Bern, North Carolina, is now hitting the market. It was first introduced as "Brad's Drink" in 1893 by Caleb Bradham. He made it at his drugstore where the drink was sold by the glass to aid in digestion and boost energy. It was renamed Pepsi-Cola earlier this year. "Pepsi" because it is advertised to relieve dyspepsia and "Cola" referring to the cola flavor. The recipe also includes sugar and vanilla. This new drink may prove to be a challenge to the popular Coca-Cola that has been around for the last decade. Coca-Cola is a carbonated soft drink manufactured by the Coca-Cola Company. The drink was originated in 1886 by an Atlanta pharmacist, John S. Pemberton, at his Pemberton Chemical Company. His bookkeeper, Frank Robinson, chose the name for the drink and penned it in the flowing script that has become the Coca-Cola trademark. Pemberton originally touted his drink as a tonic for most common ailments, basing it on cocaine from the coca leaf and caffeine-rich extracts of the kola nut. Pemberton sold his syrup to local soda fountains, and, with advertising, the drink has become phenomenally successful. By 1891 another Atlanta pharmacist, Asa Griggs Candler, secured complete ownership of the business, and he incorporated the Coca-Cola Company the following year. The trademark "Coca-Cola" was registered in the U.S. Patent Office in 1893. Candler markets the drink as a temperance drink and for its medicinal value. The current formula of Coca-Cola remains a closely guarded secret.

Both drinks are sold by the glass at local soda fountains for 5 cents. They are also available in a 6.5- ounce bottle for 5 cents too. Pepsi-Cola seems to be gaining in popularity and it will be interesting to see if its distribution will challenge Coca-Cola in the 20th century. Both drinks are occasionally available at the Village Pharmacy or Wylie's Emporium. Ask your friends in the village which they prefer.

Carnival

Comes to the Village

Entertainment for all Ages

Attention residents of Ohio Village! This Saturday our town will welcome a traveling carnival! There will be many sights and experiences to be had, and we welcome both residents and visitors of all ages to take part in what they offer. Some of the highlights of this spectacle will include a petting zoo for those youngsters that are not familiar with rural living, carnival games, and a flea circus. You are cautioned not to take any of the performers home with you. There will also be ladies of vaudeville, a wild west show featuring the sharpshooting prowess of Annie Oakley, a magic show, as well as the Slate Ridge Bluegrass Band and several artisans. Also offered will be many sideshows including daring acts like fire eating and walking on beds of nails. A word of caution however, as carnivals have notoriously attracted seedy characters with questionable morals. Be safe but enjoy the show!

The Great Divide

The Distribution of Wealth in America

As America moves from the nineteenth century to the twentieth century one of the problems facing the nation is the expanding gap between the rich and the poor. The industrialization of America has benefited all, but especially those at the top of society. While the income of the average non-farm worker has almost doubled since the Civil War, the top 1% has seen their incomes increase many times over. Much of this increase is due to the concentration of wealth in the hands of a few individuals. This has been largely achieved through consolidation of businesses and the formation of trusts or monopolies. The Sherman Anti-Trust Act of 1890 should have curtailed much of this, but it has largely been ineffective due to the lack of enforcement. These men at the very top of the financial world wield enormous power and threaten the very heart of our democratic system. How wide has the gap between the top and bottom of society become? Today when the average American worker's weekly wage is less than \$12, John D. Rockefeller is earning about \$192,000 a week. The average man today earns \$624/year. Women, who currently make up about 30% of the work force, make \$331/year. This year Andrew Carnegie will make roughly \$40 million. J.P. Morgan has an art collection that is worth over \$50 million alone. Phillip Armour's meat packing company had an income \$110 million in 1893 when the nation was suffering the worst economic recession that this country has ever seen. What is the solution to this disparity? Many reformers are now calling for a constitutional amendment to allow for an income tax to be implemented again. The likelihood of that happening seems slim since these very wealthy men are the ones who control the political process by buying the votes of our Senators and Congressmen. Has the United States become an oligarchy run by the very wealthy?

Legal Notices

Jennie Silliman, residing at North Tonawanda in the state of New York, will take notice that John H. Silliman filed his petition in the Court of Common Pleas of Franklin County, Ohio on July 2nd, 1898, being cause No. 3148, praying for a divorce from said Jennie Silliman on the grounds of adultery; the custody of a minor child and for all proper relief.

John H Silliman
J.M. McGillivray, Atty. For Plff.

Notice is hereby given that the following accounts and vouchers have been filed in the Probate Court of Franklin County, Ohio for final settlement. James W. Hansen, administrator of the estate of Mary A. O'Brian will appear before the court for settlement as soon as is convenient.

Otis Rooker has filed an action for divorce from his wife, Birdie May Rooker. He alleges that she has been guilty of gross neglect of duty and that she has a bad temper and incompatible disposition. Specific acts of cruelty are set up. Miller & Pomerens are plaintiff's attorneys. Action was filed in the County Courthouse.

Ohio News Items

Gathered by telegraph from all parts of the state.

Columbus—The Reverend T.R. Jenkins was genuinely surprised last Thursday night when returning to his residence at Trinity House. Upon returning early in the evening he discovered a score or more of the choir boys lined up against the wall outside the premises. He was immediately surrounded by the boys who presented him with a handsome bicycle lamp. Rev. Jenkins was completely surprised and immensely pleased. The occasion for the presentation of the gift was the recent retirement of the good Reverend from his position as the assistant minister at the Trinity Church.

SYSTEMATIC SAVING

How Small Amounts of Money Can Be Made to Produce Really Surprising Results

The following shows how easy it is to accumulate a fortune, provided proper steps are taken. All children should be taught as early as possible the importance of saving their money, instead of becoming spendthrifts, and flitting it away. The table shows what would be the result at the end of 50 years by saving a certain amount each day and putting it at interest at the rate of six per cent.:

Daily Savings.	Results.
One cent.....	\$ 950
Ten cents.....	\$ 9,504
Twenty cents.....	\$ 19,006
Thirty cents.....	\$ 28,512
Forty cents.....	\$ 38,015
Fifty cents.....	\$ 47,520
Sixty cents.....	\$ 57,024
Seventy cents.....	\$ 66,528
Eighty cents.....	\$ 76,032
Ninety cents.....	\$ 85,537
One dollar.....	\$ 95,041
Five dollars.....	\$ 475,208

Nearly every person wastes enough in 20 or 30 years, which, if saved and carefully invested, would make a family quite independent; but the principle of small savings has been lost sight of in the general desire to become wealthy.—Farmer's Union

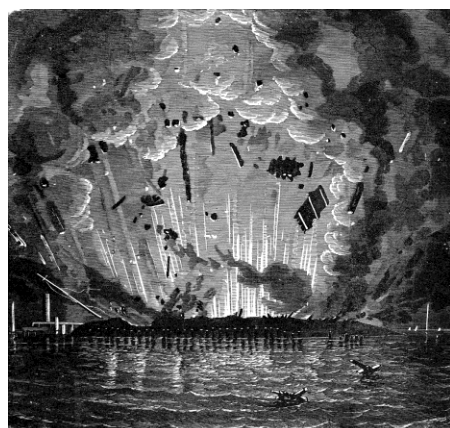

It May Cost Two Lives An Exploding Lamp Dangerously Burns a Man and His Wife

Early in the morning Sunday, a Mrs. Stokem of Columbus was burned in a lamp explosion that may prove fatal. The explosion has severely burned her body and face. After Mrs. Stokem had retired, Mr. Stokem had returned to their home. Upon return, he had lighted a lamp and started for his bedroom. At the threshold of the bedroom he tripped over a floor mat which caused the lamp to fall to the bed, lighting fire to the bed linens and Mrs. Stokem's clothing. Mr. Stokem was able to extinguish the flames, but both he and Mrs. Stokem have been badly burned. Mrs. Stokem was removed to the hospital due to a higher severity, and Dr. Keller does not believe she will recover due to possible blood poisoning.

This story is not the first lamp incident that we have heard. Mrs. Stokem's ill fate is not something that any of us are guaranteed freedom from. To be frank, this likely is not the first time any of us have known someone to obtain serious injury due to flame. It is recommended that we all maintain a watchful eye over your lamps firstly, for thy safety and the safety all around you, and secondly, to combat the wave of all those hoping for the even more dangerous use of "electricity" throughout our village. Many say dangerous because it may be ungodly for man to try to contain light. If God encased the sun fully in glass would we not be petrified? With natural flame, we are reminded of God's warmth and fully rely on Him for light and our needs. Some in the Village are saying that with electricity, we are plunged into the unfamiliar, filled with coldness and new unknown threats awaiting our body and spirit around every corner. Please be dutiful to your lamps. Each one of us depends on your duty.
